

AEROPLANE FLIES WITH NO STARTER

Wright's Machine Sails Without Using Apparatus. Breaks Record.

LE MANS, Nov. 14.—Wilbur Wright flew yesterday for the first time without making use of his starting apparatus. The rail having been lengthened by eleven yards, the aeroplane was placed thereon, the propellers were set in motion and the apparatus immediately rushed along the rail at a dizzy speed and rose in the air amid the applause of the spectators.

Another of today's experiments consisted in beating the record for height and winning the height prize founded by the Aero Club de la Sarthe. A line of balloons, held at a uniform distance of ninety-eight metres, thirty metres from the ground, was installed in the middle of the maneuvering ground. After a five-minute flight Mr. Wright cleared the balloons by forty-nine feet, or at a distance of 147 feet from the ground. Three minutes later he again flew over the line of balloons at 196 feet from the ground. He received a great ovation when he landed after eleven minutes' flight.

Mr. Wright devoted the remainder of the afternoon to making flights in company with Capt. Lucas Girardville, Comte de Lambert, and Georges Durand, secretary of the Aero Club de la Sarthe.

SWEARS SHE IS OVER "18"—NUMBER IN SHOE

Girl Uses Novel Way to Get License to Be Married. Is But 15.

HUNTINGTON, W. Va., Nov. 14.—In circuit court here, Cleveland Billups has sued for possession of his fifteen-year-old wife, from whom he had been separated since their wedding day, and asks \$20,000 damages from W. P. McAboy, bank cashier and uncle of the girl, who is said to have caused the separation.

Billups and Nita McAboy eloped to Ironton, Ohio, where a license was refused because the girl was too young. They then went to Portsmouth. The girl put the number "18" in her shoe and then solemnly swore she was "over eighteen."

The couple as soon as they returned to Huntington were separated. The girl is being closely guarded by her mother. She has \$15,000 in her own right.

JAMES T. MCCLARY IS HERE FOR WINTER

Defeated for Congress, Will Urge Tariff Law Before Congress Committee.

Former Second Assistant Postmaster General James T. McClary, whose resignation was asked for by the President because of political activity in being a candidate for the Congressional nomination in the Second district of Minnesota, and who was defeated for Congress on election day, is in the city. He says he is here for the winter.

Mr. McClary did not have much to say about his defeat, nor did he care to discuss his plans for the future. While it is understood that he is not an applicant for any office under the present Administration, it is said he will give his attention to tariff matters before the Ways and Means Committee.

Mr. McClary made his fight on the tariff as an issue as he did two years ago, when he was defeated by Representative Hammond, a Democrat. It was said this morning that he will be associated with the Protective Tariff League this winter and strive to prevent any change in protective duties.

FURS BEING SOLD AT LOW PRICES

Shoppers are taking advantage of the sale of furs begun yesterday by the New York Fur Company, 434 Seventh street northwest. The company announces that owing to the unusual backward season, the furs have been reduced greatly and many purchasers are seizing the opportunity of acquiring a mink or coat at a comparatively small cost.

DELIVERS LECTURE UPON AERONAUTICS

A lecture on "Aeronautics" was given last night by Lieut. Francis P. Lahm of the Signal Corps, in the assembly hall of the Y. M. C. A. The lecturer traced the history of aeronautics in this country from the time of the first test of the balloon through experiments with the dirigible, down to the heavier-than-air machines, taking for his chief topic in this regard the inventions of the Wright brothers.

Lieutenant Lahm said the experiments with the Baldwin dirigible, the Ford M-2, had been highly successful, and the Government would construct a larger machine of the Baldwin type.

ANCIENTS' CLOTHES SHOWN ON SCREEN

An illustrated lecture, showing the evolution of clothes from the first authentic photographs until the present time, was the unusual feature presented before the National Geographic Society, at Masonic Temple, by Oscar P. Austin, of the Treasury Department, last night. Moving pictures showing the costumes of the tenth century to the present, enlivened the lecture. The photographs of the modern costumes shown, were taken by Mr. Austin on his recent trip around the world.

PREDICTS AWFUL WAR WITH UNITED STATES

Japanese Statesman Says Struggle Is Bound to Come and That It May Last for 100 Years—Gives Reasons for His Views in Magazine Interview.

NEW YORK, Nov. 14.—War, devastating, terrible, lasting perhaps a century, between the United States and Japan, is declared inevitable by Gen. Viscount Torio, Japanese elder statesman and one of the closest friends of Mikado, in an interview secured by Richard Barry, the war correspondent, to be published in the December number of Hampton's Broadway Magazine.

Coming from a man of such great prominence this first authoritative prediction of a huge conflict between Occident and Orient is expected to stir nations of the world as has no utterance of recent times.

"Come and see me when you return from the first stage of it," General Torio told his interviewer. "Your hair will be as gray as mine."

"What," said Barry, "a thirty years' war?"

"Perhaps a hundred," he answered. "You have a great nation, and we have—well—we have a great nation, too."

"But it is possible for nations to fight so continuously in these modern times," he was asked.

"In the life of a nation like Japan, a century is but a day. We have existed since the growing of the first anemone; we will continue to exist after the reaping of the last sunflower. And we have existed so long for one thing—to preserve our national unity."

One of a Family.
"As a nation, we are only one member of a family. That family covers the whole continent of Asia and all the islands that lie near by. It has many members from the old grandfather, China, to the little bad boy in the Philippines. It is a big family, a wonderful family, and we revere it. Behind the family, we remember nothing; beyond that family we see nothing. There is nothing but the family. All ideas of life are based upon the family; thereto our civilization is built. We are born, we live, we die for the family; the family gives us our colossal strength, our perpetuity. And it gives us also that easy reliance in ourselves which lets us drift, sometimes for centuries, secure always in the faith that if some members of the family may be weak or foolish, there will always be a strong member to fight, to maintain, to shield."

"Over 2,000 years ago, your boy, Alexander, strayed into our back yard. He was a bright boy and venturesome, expert with both swords, and we sent against him one who at that time was our elder brother, the good Xerxes. Our elder brother fell, and your younger brother pushed on, for how long? For a breath, a laugh, a shy, exulting shout; then he slipped, he fell, he died, and his people scattered and his nation perished, and we lived on the family triumphant."

"We opened, we absorbed them, we passed them out, and did not know that they had come. And therein we always win. If overwhelmed, if started, if outwitted, we yield, we gracefully submit for a time—and then the family gathers its loyal members together, loosely enfolds its entwining and terrible arms hospitably about our triumphant victor. You have a family, just as we have one, your family of the Occident; and four times in the last 2,000 years has some member of your family strayed over to impose upon the rights of our family. Four times have we cast you out and your marks have hardly remained."

"To you think, then, that the fifth time you come upon us you are to stay to take our lands, keep our men, remove our money? The 150 years you have been in India is but a day and a half in our slow family pride, your decade—Philippines, but the interval between smoking cigarettes."

Is It Strong Nation?
"To be exact, then," asked General Torio's interviewer, "you mean that Japan is today the strong nation, Asia, and that she will right the wrongs of all the Orient, that you will drive the Americans from the Philippines, the British from India, the Russians from Manchuria, the French from Indo-China, and the Germans from Kiaochow?"

"You! you Americans!" exclaimed the old man, showing his first impatience, and that only by the quick movement of his eyelashes. "To be exact, we have driven the Russians from lower Manchuria."

"Why did Japan choose Russia first among the white people?"

"Why does the wounded buffalo turn on the dogs?" he replied, almost savagely.

Not Loyal Acts.
"And yet now that you have Korea, the natives complain more bitterly than they did of the Russians. Is that like a loyal member of the family?"

"This old man smiled slyly. 'The bad young one never likes to be spanked.'"

"Do you then regard so confidently a conflict with America?"

"I regard it as inevitable. You are encroaching on the rights of our family."

"And you feel certain of the outcome?"

"Remember this," and as he spoke the old man rose. "The whole difference between you and us hinges on a thought, what your philosophers call a mental attitude. That thought is the attitude we bear toward one another. Among you the idea of life is based upon the family; among us it is based upon the purpose—duty; the highest duty is the family."

"Even in these casual observations," continued the author, "was shown clearly, more clearly than is usual with his diplomatic countrymen, the innate contempt that the Japanese bears for the American."

MELBA KEEPS NAME FROM NEWSPAPERS

Does Not Figure in Divorce Suit in Which Son Is Defendant.

LONDON, Nov. 14.—Influential friends of Mme. Melba, the famous prima donna, have been instrumental in keeping her name suppressed in the divorce proceedings against her son, George Nesbit Armstrong, and today's London papers make no mention of the singer in their accounts of the suit.

Armstrong made no defense to his wife's charges of cruelty and infidelity, and she was granted a decree of absolute divorce. Young Armstrong is now with his mother here, and he may accompany her to America on her next tour. Despite the fact that the divorce trial disclosed the fact that he has sowed more than his share of wild oats, Mme. Melba says her son is not to blame for the unhappy proceedings of his matrimonial venture.

ASKS A SENTENCE FOR SCRAPPY CUBAN

HAVANA, Nov. 14.—The district attorney today made a demand for a sentence of two and a half years' imprisonment for a Cuban named Yarin, who assaulted J. Cornell Tarler, charge d'affaires of the American legation, last September.

Tarler was sitting in a restaurant with Captain Porteus, when a group of Cubans insulted them. Yarin struck Tarler a heavy blow in the face.

MRS. BAYLY TO PRESIDE.

Mrs. William Hamilton Bayly will preside at the mas meeting for women at the New York Avenue Presbyterian Church at 3 o'clock tomorrow afternoon, under the auspices of the Young Women's Christian Association. Mrs. Thomas S. Gladding, of New York, a member of the national board, will be the principal speaker at the meeting. Mrs. Thomas C. Noyes will render two solos, and music will be furnished by the orchestra, composed of members of the association.

LIGHT FICTION BEST.

"I expect to take a few books with me," said the aeronaut, "as the trip is likely to be a long one."

"They'll be useful for ballast, too, I presume," observed the reporter.

"No," the aeronaut replied. "The light fiction; 'I shall take nothing but light fiction.'—Chicago Tribune."

Beauty and Bad Breath
Cannot Go Together No Matter How a Woman May Try to Make Them. It does not matter how beautiful a woman may be, if she is afflicted with bad breath she will be shunned and pitied by men and even women will studiously avoid her.

If any woman doubts this statement let her make a point of asking a friend in whom she may confide, a man friend or relative, if he is honest he will tell her that foul breath from the mouth of a woman will drive men from her more rapidly than any other personal affliction.

Foul breath arises in man disgust and where this quality is brought into reason can overcome the natural repugnance which comes to man when he is in company with such a woman.

What is true of bad breath in woman is not true in so great a degree in men. Women are looked upon as the incarnation of sweetness, breeding, virtue and refinement. Foul breath will sicken a man so that he cannot feel for such a woman a companionship necessary to make him desire to be in her company.

There is absolutely no occasion for bad breath in either men or women. Charcoal, the strongest absorbent known, when taken into the stomach, will prevent this repugnant tendency or affliction.

Stuart's Charcoal Lozenges are sold in tremendous quantities all over America and Canada. They cure and have cured all forms of bad breath. A single box will convince you of this fact. One should eat some of these lozenges after each meal and upon retiring. You might eat fifty of them without harm. They are not medicine, but pure willow charcoal mixed with sweet honey to make them palatable and compressed into a lozenge to preserve their peculiar and lasting strength.

The next time you wish to go into company and don't want your foul breath to humiliate you, eat several of Stuart's Charcoal Lozenges and your breath will be pure and sweet.

Every druggist carries them, price 25 cents, or send us your name and address and we will send you a trial package by mail free. Address: F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

\$100,000 FIRE LOSS IN PITTSBURGH PLANT

Blaze in Paint Shop Spreads Rapidly Over Dawes Factory—200 Men Out.

PITTSBURGH, Nov. 14.—Fire consumed the plant of the Dawes Manufacturing Company at midnight, causing a loss of \$100,000.

The fire started at 11:30 o'clock in the paint shop and spread rapidly. The Dawes building was a two-story brick structure used in the manufacture of electric signs and advertisements, and drugists' supplies. Adjoining the paint department thousands of feet of lumber was stored. This made the flames uncontrollable.

At times large quantities of gasoline and benzine stored inside the building exploded, wrecking walls and making it impossible for firemen to get near the structure.

Two hundred men are thrown out of work.

CATHOLIC KNIGHTS WILL GIVE PARTY

Members of the Catholic Knights of America will give their annual donation party for the benefit of St. Joseph's Male Orphan Asylum in Convention Hall on Thanksgiving day, November 23.

The program will include an address by the Rev. Father William T. Russell, rector of St. Patrick's Church, and an offering of vocal solos and cantatas by the orphans of St. Joseph's Asylum.

ABOVE REPROACH.

"So you're looking for a job, Rustus?"

"Yes, sub. You see, I've done married a girl who am an artist at de tub and makes good wages."

"And you want her to quit work?"

"Oh, no, sub. 'Tend dat, but I've feared 'An't git classed 'mongst dem idle rich of Ah doan' hustle.—Philadelphia Ledger."

ATLANTA PUTS OUT CITIZEN'S TICKET

Former Mayor Will Have Hard Fight—Record Is Blamed.

ATLANTA, Ga., Nov. 14.—Robert P. Maddox, vice president of the American National Bank, has been chosen by a citizens' committee of twenty-five to oppose James G. Woodward, the regular Democratic nominee, for mayor in the city election on December 2.

The action of the citizens' committee of twenty-five is unprecedented; heretofore, the Democratic nomination having been considered equivalent to election, and grows out of a sensational police court case docketed against Mr. Woodward.

It is generally conceded that all the newspapers of Atlanta will support Mr. Maddox's independent candidacy, and he is sure to get a large vote. On the other hand, Woodward, who recently polled more votes than both his opponents—Thomas B. Goodwin and Joseph Hirsch—combined, in the primary, has a staunch following that will never desert him. Mr. Woodward has twice been mayor of Atlanta, and in certain circles there has been much bitter criticism of his private life.

SCHOOL INQUIRERS COMPILING DATA

Committee of Architects Complete Inspection of 129 Buildings.

After having visited 129 out of the 143 schools in the District, the committee of architects, appointed by Commissioner Morrow several weeks ago, will begin tonight the compilation of the data it has obtained in its rounds of investigation.

The committee, consisting of Architects Appleton P. Clark, Jr., Leon E. Deasez, Paul J. Pelz, and Builders James L. Parsons and Samuel J. Prescott, will continue its work of compilation next week, probably working at night as well as in the afternoon.

It is the intention of the committee to be able to present its findings to Congress early in the session, or rather to put them up to the Commissioners, so that the latter may put them up to Congress.

That the committee will find but little to praise in the public school construction of the Capital City, is most probable, although any severe condemnation or any statements that every child in the city is in daily danger while at school is understood to be far from the truth.

Anty Drudge Tells How to Save a Day.

Mrs. Method—"Let's see when I can go shopping: Monday, washing; Tuesday ironing—"

Anty Drudge—"Right there's where you can save a day, Mrs. Method. Use Fels-Naptha in your washing and it'll only take a part of Monday forenoon, with no hard work and you can do your ironing the same day. Fels-Naptha's worth nearly a whole day in time alone every week besides the work, fuel and bother it saves."

Fels-Naptha is more than a soap—it's a helping hand on washday.

And a mighty big help, too.

If a neighbor came in and did three-fourths of your weekly washing, she would be doing as much as Fels-Naptha will do for you if you wish.

Fels-Naptha will dissolve and loosen the dirt in your clothes while they soak in cool or lukewarm water.

Then, with a light rub and thorough rinsing, they're ready for the line.

No boiling; no hard rubbing; in summer or winter.

And your clothes will be sweeter, cleaner and whiter than if you boiled them till Doomsday.

Take advantage of this helping hand next washday and the drudgery of washing clothes will be ended for you.

Follow directions printed on the back of the red and green wrapper.

OFFICIALS PLANNING GAS INVESTIGATION

Will Probably Probe Into Causes of Accidental Asphyxiation—Coroner's Verdict Awaits Report of Chemist in the Bremerman Case.

The recent triple Bremerman tragedy, which, it is believed, was due to carbon monoxide poisoning, will result probably in a searching investigation by District officials into the causes of accidental asphyxiation, to determine whether the majority of such cases are due to carelessness on the part of the victims, or to alleged poisonous ingredients used in the manufacture of illuminating gas.

Not until Prof. W. W. Skinner, of the Bureau of Chemistry, Department of Agriculture, has completed his investigations and made a report of the findings, and the Coroner's jury has heard the testimony of a large number of witnesses, will a verdict be rendered fixing the responsibility. If there was any, for the deaths of Mrs. Hebe C. Bremerman, Mrs. Helen K. Bremerman, and eighteen-month-old Cutts Bremerman.

Prof. Skinner is conducting an official investigation in the laboratory of the department, and when he has completed his report the Coroner's jury will begin the inquest. So far as can be learned, there is no record of any previous deaths in the District from carbon monoxide poisoning, but Coroner Nevitt has obtained information that hundreds of persons have narrowly escaped death in a similar manner.

The District officials have been conducting an investigation that will enable them to go into the subject of carbon monoxide poisoning in a thorough manner at the inquest.

Cases of accidental asphyxiation have been reported to the Coroner's office so frequently during the last few years that Dr. Nevitt has seriously considered recommending to the Commissioners a regulation requiring that all gas jets be equipped with thumb screws that will turn only half way around. The majority of accidental deaths from inhaling illuminating gas are due to the old style fixtures, which have a free thumb screw, with no stops.

Persons after turning out the gas frequently give the stopcock an accidental turn after extinguishing the light, and in this manner leave the gas flowing. All modern fixtures are equipped with thumb screws that have half way stops, but there are many houses and buildings in the District still equipped with the old-fashioned fixtures.

Plumbing Inspector Davis has also investigated fixtures in houses where deaths have resulted from gas, and he is in favor of a regulation requiring that all old fixtures be replaced with modern ones. It is likely that the Commissioners will take the matter up, and that a rule covering gas fixtures will be made in the plumbing or building regulations.

FULL WEIGHT GIVEN TO BUYERS OF COAL

Inspectors' Reports Say Dealers Are Giving Good Measure. No Shortage Found.

That as a general rule the coal dealers of the city are giving full weight is shown by the report of inspectors of the office of the scales of weights and measures. In order that the public may be assured that it is receiving the amount paid for, the inspectors have been instructed by Sealer W. C. Haskell to weigh loads of coal on the public scales while on the way from the dealer to the consumer.

The wagon is weighed to show the gross weight after which the inspector accompanies the driver to the place where the coal is delivered and the wagon is again weighed to obtain the net weight. Colonel Haskell said today that in no instance has the weight been so short as to warrant prosecutions, and the majority of dealers give a little more than the full weight.

A test is now being made of the wagon scale in the District.

HUBBARD NOW SAYS THAT HE IS DIVINE

Lecturer Also Declares That Christ Was But One of Nine Messiahs.

CAMBRIDGE, Conn., Nov. 14.—Staid old Connecticut is not giving up her dual interest in football and politics these days for the brilliant theological debate between Elbert Hubbard and the Rev. C. C. Albertson, of Rochester, N. Y.

Christianity, said Hubbard in the poorly attended debate here last night, is but one of the seven great religious systems, and Christ but one of nine possible Messiahs.

"I am divine, but not Deity," he said. "Jesus was a reformer, an honest, simple, brave, and generous spirit, divine that we have confounded him with Deity."

VOTE IS TWO TO ONE.

SIOUX FALLS, S. D., Nov. 14.—The new divorce law, increasing the period of residence from six months to one year, was carried on November 3 in South Dakota by a vote of two to one, according to unofficial figures.

Anty Drudge Tells How to Save a Day.

Mrs. Method—"Let's see when I can go shopping: Monday, washing; Tuesday ironing—"

Anty Drudge—"Right there's where you can save a day, Mrs. Method. Use Fels-Naptha in your washing and it'll only take a part of Monday forenoon, with no hard work and you can do your ironing the same day.
